

Risk assessment

Name of activity , event , and location	CONTENT CREATION BLAIR ATHOLL	Date of risk assessment	15/05/26	Name of person doing this risk assessment	RHYS MELDRUM
		Date of next review	01/07/26		

What could go wrong? What hazard have you identified? What are the risks from it?	Who is at risk?	What are you going to do about it? How are the risks already controlled? What extra controls are needed? How will they be communicated to young people and adults and remain inclusive to all needs?	Review & revise What has changed that needs to be thought about and controlled?
Trips, slips, and falls while moving around site filming	Young people, volunteers	Participants briefed to remain aware of surroundings while filming; no running; suitable footwear required; avoid uneven or restricted areas; adults supervise movement between locations	
Distraction from filming causing collisions or accidents	Young people, public	Participants instructed to stop walking while actively filming where possible; maintain awareness of others . Adults monitor behaviour and intervene if unsafe	
Weather exposure (rain, heat, cold, sun) while outdoors	Young people, volunteers	Weather -appropriate clothing required , water available; activity adapted or paused in severe weather , shelter identified nearby	
Safeguarding concerns from filming young people	Everyone	Follow event photography/media consent procedures , no filming of anyone without permission , adults supervise all content creation , inappropriate content deleted immediately and content checked again after editing for photo permissions	
Online safety / inappropriate posting	Young people	All uploads reviewed by adults before posting/sharing , no personal information shared , participants briefed on digital safety and appropriate content standards	
Battery charging/electrical hazards	Participants, volunteers	Only approved chargers and power supplies used after PAT testing, charging supervised where possible , cables kept tidy and away from walkways	
Interaction with members of the public or other participants	Young people	Young people work in groups , adults remain nearby/supervising; clear boundaries set on where participants may go	
Fatigue from prolonged screen use or walking	Young people	Regular breaks encouraged , access to water and seating , activity duration monitored by leaders	
Inappropriate or offensive content being created	Young people, organisation reputation	Clear behaviour expectations set at start , adults review footage and edits , content removed if unsuitable

Risk assessment

Participants with additional needs	Young People	Ensure that reasonable adjustments can be made for any participants with additional needs to ensure that can take an active part in the activity.	
Drones	Everyone	Drone operation is to only be done by someone with the correct licences. Drones are not to be flown over ANY area that could have someone below	

Don't forget, as part of your programme planning, you should have contingency activities in reserve just in case you can't do what was planned or you need to stop half way through. Make sure this is shared with those involved, so everyone knows how to respond. You should have risk assessed contingency activities prior to them taking place and communicated key information to those involved as with all activities.
