

Blair Atholl Risk Assessment 2024

Name of activity, event, and location	Kastle Area General Risk Assessment for all areas	Date of risk assessment	09/07/2024	Name of person doing this risk assessment	Lynne Cattanach-Rodger
		Date of next review	Before the 2026 camp		

What could go wrong? What hazard have you identified? What are the risks from it?	Who is at risk?	What are you going to do about it? How are the risks already controlled? What extra controls are needed? How will they be communicated to young people and adults and remain inclusive to all needs?	Review & revise What has changed that needs to be thought about and controlled?
Hazard: Slips, Trips, Falls Risk: Injury	All	<ul style="list-style-type: none"> Try to ensure area is clear of obstructions and fill any holes in regular walking routes Pick up litter etc 	
Hazard: Cuts Risk: personal injury	All	<ul style="list-style-type: none"> Ensure knives, scissors, tools etc are stored aware after use Avoid leaving sharp edges on displays etc Remove any damaged seating or tables etc as soon as found / notified 	
Hazard: Behaviour Risk: Injury	All	<ul style="list-style-type: none"> Limit horseplay or similar behaviour to avoid injury to persons or damage to material or build structures 	
Hazard: Electrocution Risk: injury / death	All	<ul style="list-style-type: none"> All electrical equipment to be clearly identified and safe zones marked to avoid danger of damage to cables Power charging points to be checked before each session in the Kastle to ensure safe and no potential for water ingress from rain or spilt drinks <ul style="list-style-type: none"> Before Flag Lunchtime Before Evening Session 	
Hazard: loose cables Risk: tripping	All	<ul style="list-style-type: none"> Cables that are not protected (I.E. out of harm's way) will be either marked off in an area or if that is not possible have a casing on them so they are more visible 	
Hazard: Rubbish / Waste Materials Risk: Injury / Illness	All	<ul style="list-style-type: none"> Litter and Rubbish to be cleared up after each session and sealed in bags for collection by site services to avoid potential of small waste causing injury to those with open footwear or similar

Blair Atholl Risk Assessment 2024

		<ul style="list-style-type: none"> Seal the bags to discourage vermin potentially being attracted and causing illness from urine / excrement / carried disease Store bags outside of marquee to avoid wasps and bees gathering 	
Hazard: Falling structures Risk: impact causing injury	All	<ul style="list-style-type: none"> Ensure all fixings are sound before allowing access to kastle area each day Check before each use Ensure built structures are supported or tied off to avoid collapse 	
Hazard: stacked materials Risk: impact causing injury	All	<ul style="list-style-type: none"> Ensure materials are stacked in a safe way Adjust materials if stack become unsafe due to movement of materials 	
Hazard: Marquee Risk: impact causing injury	All	<ul style="list-style-type: none"> Marquee to be checked daily to ensure no issues Marquee pins to be covered or cordoned off where there is potential for injury Use barriers to prevent access when not in use 	
		<ul style="list-style-type: none"> 	
		<ul style="list-style-type: none"> 	

Don't forget, as part of your programme planning, you should have contingency activities in reserve just in case you can't do what was planned or you need to stop half way through. Make sure this is shared with those involved, so everyone knows how to respond. You should have risk assessed contingency activities prior to them taking place and communicated key information to those involved as with all activities.

You can find more information in the [Safety checklist for leaders](https://scouts.org.uk/safety) and at scouts.org.uk/safety
