

Blair Atholl Risk Assessment 2024

Name of activity, event, and location	Kastle Kurrents (newspaper) In our Kastle (the activity marquee) Target Park Blair Atholl	Date of risk assessment	12/06/2024	Name of person doing this risk assessment	Sharon Fleming
		Date of next review	Before the next camp or when changes are required		

What could go wrong? What hazard have you identified? What are the risks from it?	Who is at risk?	What are you going to do about it? How are the risks already controlled? What extra controls are needed? How will they be communicated to young people and adults and remain inclusive to all needs?	Review & revise What has changed that needs to be thought about and controlled?
<p>A hazard is something that may cause harm or damage. The risk is the harm that may occur from the hazard.</p>	For example: young people, adult volunteers, visitors	<p>Controls are ways of making the activity safer by removing or reducing the risk. For example, you may use a different piece of equipment or you might change the way you do the activity.</p>	Keep checking throughout the activity in case you need to change what you're doing or even stop the activity. This is a great place to add comments which will be used as part of the review.
<p>For example: Hazard: fire Risk: smoke inhalation or burns</p>	Leaders, visitors, Young Leaders, Scouts	<p>Smoke: use dry wood, check wind direction, stand people out of smoke direction. Burns: stay a safe distance from fire, place extra wood on carefully, teach Scouts good practice around fires, have a burns first aid kit easily available.</p>	
Slips, trips and falls	Leaders, visitors, Young Leaders, Scouts	Bringing attention to possible hazards in the area and remind Scouts in briefing at start of activity. Bringing special notice to the cables being used in our activity area and the uneven ground under foot throughout Target Park.	

Don't forget, as part of your programme planning, you should have contingency activities in reserve just in case you can't do what was planned or you need to stop half way through. Make sure this is shared with those involved, so everyone knows how to respond. You should have risk assessed contingency activities prior to them taking place and communicated key information to those involved as with all activities.

You can find more information in the [Safety checklist for leaders](#) and at scouts.org.uk/safety
